

## COVID-19 POLICIES

AS OF 5/24/2023

Friends of Camp Concord will closely follow the recommendations of the [American Camp Association](#), the [Center for Disease Control](#) and [El Dorado County Health and Human Services](#). The framework outlined in the [American Camp Association's Field Guide for Camps on Implementation of CDC Guidance](#) will serve as the foundation as we modify policies as needed.

Updates to policies and procedures will be communicated with campers' families. **Due to the rapidly changing climate regarding COVID-19, changes may need to be made up to 24 hours before departure.**

All paperwork, including waivers, must be completed and submitted by May 15, 2023, with exception of the 24 hr Health Status form and COVID-19 test results that will be collected at check-in. All documents will be available in our ActiveNet registration platform, or emailed directly to parents/guardians.

### PRE SCREENING & PLANNING FOR YOUTH CAMP

- » Proof of a COVID-19 vaccination is **not** required for campers.
- » Proof of a negative COVID-19 test prior to arriving at camp is **not** required. We strongly encourage you to test your camper before check-in day. See our cancellation policy if your camper tests positive within 72 hours before camp with a PCR test.
- » If a camper has been exposed to COVID-19 within the 5-days of camp, they may attend camp after exposure to a case as long as they remain asymptomatic. Five days prior to camp is June 13, 2023.

### INITIAL SCREENING AT CHECK IN

- » All campers will need to complete a health screening and lice check, at check-in.
- » Complete pre-screening form(s) before arriving at camp/loading bus.
- » A lice check will be completed during check-in by Comb It Out before boarding the bus. For campers dropped off at camp, the Camp Nurse will conduct the lice check.

### STAFF

- » Trained in sanitization and cleaning.
- » Trained on recognizing COVID-19 symptoms.
- » All staff will follow recommendations of the CDC and El Dorado County Health and Services.

### EXPOSURE PLAN

- » A Camp Nurse will be at camp 24/7 during the duration of the Youth Camp program.
- » The Camp Nurse, in consultation with the Camp Director and Youth Camp Coordinator, will determine if the camper is experiencing COVID-19 symptoms versus symptoms such as allergies, dehydration, or other ailments. The camper will be tested with an over-the-counter test.
- » If your camper tests positive for COVID-19 at camp, you must pick up your camper within 8 hours of notification.
- » Your camper will be quarantined at a designated cabin and supervised by a staff member until the parent/guardian arrives.
- » In the case of a camper testing positive for COVID-19:
  - Parents/guardians of campers bunked in the cabin with the positive test will be notified by phone (text or call) and email of the positive test.
  - Campers bunked in the cabin with a positive test will only be tested if they are experiencing symptoms.
  - Parents/guardians may pick their camper up at camp. No refund is provided per our refund policy.
  - All potentially exposed campers and staff are encouraged to get tested following camp and report results to Friends of Camp Concord and Camp Concord.

### REFUND POLICY

- » If the local or state health department recommends a change to reduce campers' numbers below our advertised camp session, priority will be given to those who registered first and are paid in full.
- » Please refer to the Refund Policy for more information.
